FOREWORD • FROM THE FLOOR

An export house that knows its factories *by name*.

Balaji Udhyog has exported India's hardware and decor since 1998 — working directly with the foundries of Muradabad, the lock houses of Aligarh and the glass furnaces of Firozabad. Twenty-five years and three thousand containers later, we remain what we started as: a family-run export house that knows its factories by name and its ports by behaviour.

This catalogue is the working document of that relationship. Every SKU on these pages is sourced from a named partner unit, audited by our quality team and produced to a documented specification. We ship FOB Mundra or CIF your African port; conformity for SONCAP, KEBS-PVoC, SABS, GSA and TBS is handled before the container leaves India.

Each of the nine collections includes **eight detailed base items** (each shipped in 20 variant SKUs) plus **92 additional product styles** — a total of **100 products per category** and **2,228 SKUs** across the catalogue.
